The nomination of Mr. BILLINGHURET by the Republican Convention, which met at Waupun on Tuesday last, completes our Congressional ticket. It seems that on Monday morning, a prisoner by the name of Evison, from Kilbourn City, was let out to empty and clean the buckets belong-ing to the cells. When returning to the jail he concealed an are under his ceat, and on getting to the top of the stars leading into the cells, cut the pedlock of the first door off, at one blow, and the padick of the first door off, at one blow, and then with three or four blows more did the same to the inner one. Everson, and two prisoners by the names of James McGuire and Eli Bagley, who were chained together, then went down maire brandishing the axe, and proceeded to the Sheris's Stable. Evison then cut McGuire's and Bagley's chain. Barron autother prisoner was in the stable. Him, they threatened with lostant death, if he attempted to give an alarm. The three then took each a horse and estarted towards Fort Winnebago.

After their departure Barron took the remaining herees and came dawn after Deputy Graves.

ing heree and came dawn after Deputy Graves, who bastened after the fugitives. In the meantime rather an amusing incident occurred. John Murray who, it will be ra-membered, was tried and convicted at the last term of the Circuit Court, of the murder of Pat-rick Bowes of Newport, but was not sentenced rick nowes of newport, but was not sentenced by Judge Collins, was extremely auxious to pureue the escaped prisoners. He felt confident he could catch them. The Deputy's wife was facily prevailed on to allow him the use of a coid chisel, with which he cutoff his own from and started in pursuit. He niede promise that he would surely return if he did not succeed in effecting their canture. The idea of allowing a effecting their capture. The idea of allowing

convicted murderer to pursue a burglar and one for assault and battery, is certainly novel to any the least. True to his promise, however, in about two hours Murray returned.

THE SLAVES OF THE "ECHO."-The act of 1819 prescribes the adjudication to be made by the United States Courts in such cases as that of the slaver Echo. According to its terms, the restel is confiscated and must be sold; the crew are gullty of piracy and punishable with deatha bounty at the rate of \$25 for each negro resoued alive, is to be paid to the officers and men of the United States ship making the capture ;

MURDERS.-D. D. Tupper, of Ochon, St. Lawrence county, N. Y., died suddenly and mystoriously on the 24th of July, and there being facts to arouse suspicion, a post mortem examination was held recently, which resulted in ersenic being found in his stomach. The News and the "Corruptionists." The News, which is owned and controlled by the La Croase R. R. "Corruptioniets," (to borrow lts own epithet) evidently disapproves of the publication in the Santinel of the amount recoived in bonds by the several Members of the Racine Democratic Congressional Convention. Indeed it is no exaggeration to say that the News is decidedly angry about it, and replies to the Sentinel in terms for from polite. But as the News does not deny a single fact we stated, nor dispute the strict accuracy of the figures we gave, we submit that its exhibition of temper is no answer to the contrast we presented, and that calling us names does not particularly affect the fact that Bertall Brown and the Convention which nominated him, received in the aggregate \$407.000 of La Crossa bonds.

It is proper, however, to remark that the News introduces a new plea in this connection which is, that its patron and proprietor, Mr. KILBOURN, had nothing to do with "corrupting" the Legislature of 1856, and that the great mass, both of

should know. They had nothing to do with "corrupting" either the Gaverner or the Legilature. Mr. Kithaduss's own evidence before the Investigating Committee shows, that he was the "great productator," and that Mosers Jan RING HADLEY, FALVEY, &P., were his active side. Buras they are all the personal and political friends of the Nows, that journal tries hard to transfer from their shoulders the responsibility for acts which they have openly av wed. It will hardly succeed in this attempt at deception.

Reriah in "Bondy."

Any one who will take the trouble to turn to page 201 of the Rulroad Investigating Report of last winter, will flud the amount of stock and tonds pecketed by Burstow and the Balauce, as their share of the La Cosse corruption swildle. They received forty per centum in La Caose bonds on each share of stock presented to have been subscribed in the St. Croix & Superior R. R. Co. Annexed are a few of these items:

The above is a small part of the list. It shows who got the principal sows, and that Berish dipped in pretty deep. Does any one believe that Berish Brown ever subscribed \$130,000 in stock in the St. Creix Co? It is not entirely appeared that the standard of the standard apparent that this was all a sham got up by the "Forty" to plack a million dollars from a public trust fund, without rendering any equivalent whatever? The whole scene is one of the most horrible farces which it has ever been my fortune witness. There will no doubt be a clean aweep made of every building inside of the second inclosure, including the only remaining Hespital. The Government buildings—the little offices occupied by the inspectors will be left intact. The Government have 60 marines to protect them. With the other matter the—burning of the State property—they will not interfere. This has been distinctly stated by the officers who speak by authority. Parties with torches in hand and carrying burches of thay, moved up the street, followed by the orowd. At 10:30 P. M. they entered the block of cottages, occupied by the Doctor's beatmen, at the west end of the Quarantine inclosure, ironting on the main street which leads up from the ferry. All the loose materials about the house, such as the banister rails, steeps, shutters, &c., were piled incide one of the rooms, and a mass of hay piled upon them.
